ABSTRACT. some paterns how to write texts and formulas for the journals Tatra Mountains Mathematical Publications and Uniform Distribution Theory. Read <http://tatra.mat.savba.sk/> INFO FOR AUTHORS.

Do not use predefined symbols in abstract. Be so kind if it is possible do not use complicated formulas in abstract. In abstract avoid writing reference by command cite but write whole citation.

1. Introduction

This text is just to help you write text to the journal Tatra Mt. Math. Publications.

Be so kind and do not use figure or table in the first page.

1.1. Subsection

THEOREM 1.1. *How to write author's name with item of references in text surname, initial. [3]*

Differences in the views of formulas in text and centered formulas. dt, d, dx, cos. Big spaces: quad and qquad in centered formulas.

×, ·, not .

+⋯+ not ... 0, 1, ..., d - 1, not ...

$((2(3 + 3))\alpha \sum_1^0) \int_0^1 \cos^2, \prod_0^1$

Some differences in views of centered formulas

$$\left((2(3 + 3))\alpha \sum_0^1 \beta \right) \cdots, \tag{1}$$

$$\left((2(3+3))\alpha \int_0^1 \right), \tag{2}$$

$$\left((2(3+3))\alpha \prod_1^0 \right). \tag{3}$$

LEMMA 1.2. *Theorem style — the text is in italics*

Use labels for environments Lemma, Theorem ...; equation, align, multiline ... , figure, table, e.g., Fig. 1, equation (3), Table 1

.....

COROLLARY 1.3. *roman*

- a) *aaa*,
- b) *bbb*,
- c) *ccc*.

- 1. *Aaa*.
- 2. *Bbb*.
- 3. *Ccc*.

Notes: *Aaa*.

Notes: *Bbb*.

Notes: *Cccc*.

DEFINITION 1.4. *definition style — the text is in roman* In lists use correctly

EXAMPLE. *xyz*

Remark 1. *xyz*

Title of the proof if any. *xyz*
